

Safety and Emergency Information for HSC Students

Ensuring the safety and security of students at the HSC is one of our primary concerns and obligations. Therefore, we strive to create a safe learning and work environment and to ensure that HSC students and employees feel confident to handle a wide variety of emergency situations.

We encourage you to become fully knowledgeable about the following critical elements of our safety and disaster-management program and that supplement the online UNM student handbook, *The Pathfinder* (<http://pathfinder.unm.edu/index.html>). Additional resources will keep you informed specifically about individual emergency preparedness, safety and security (<http://emanage.unm.edu> and <http://campussafety.unm.edu>).

At a minimum, please do the following:

- Remain registered with *LoboAlerts* to receive announcements via phone texts and/or email. Your family and friends can register, too. If you are aware of any campus alerts, be sure you inform other students and faculty who are close by. *LoboAlerts* are also posted on digital signs in HSC buildings.
- Because you attend classes in many buildings, use the library and food services and are in clinical settings, know how to find the following in each location you visit:
 - The nearest AED (Automated External Defibrillator) station for cardiac events
 - Building emergency exits
 - Fire alarm pull stations, extinguishers, and designated gathering places
 - The best “shelter in place” location
 - The nearest blue emergency phones, if outdoors
- Download the UNM *LoboMobile* app for your mobile devices (from the Apple Apps or Google Play Store) which includes an icon for “Emergency Info” with emergency numbers and a mobile version of the UNM Emergency Preparedness handout. (<https://mobile.unm.edu/>).
- Understand that in case of an emergency, your first action should be to ensure your own safety.
