Documentation of Completion:

Didactic curricular offerings will include the orientation (~3.5 hours), the leadership training during orientation (~8 hours), follow-up leadership training sessions (~1.5 hours each), the ECHO clinic sessions (1.5 hours each), conference attendance, and other opportunities yet to be determined including other ECHO clinics focusing on opioid use disorders and pain management. Attendance will be taken at the orientation, leadership trainings, and ECHO sessions. Evaluations of the ECHO sessions will also be used to document participation. Scholars will need to provide proof of attendance at conferences and other offerings. Scholars Program-qualifying clinical experiences take place in an interprofessional primary care setting in a rural or underserved area. The scholars will need to document the location, hours, and the disciplines of the students and professionals with whom they worked at each clinical rotation with AHEC. (AHEC will provide a template for this documentation.) Scholars will compile products of their work in the program in a portfolio. Examples include case presentations and evaluations from ECHO sessions, documentation of clinical experiences, posters or presentations given at conferences, etc. and submit by August 1 2020.
